Re: *State of Georgia v. Kerry Craig Walker*, Case No. 02-CR-0053

Dear Ms. Helppie:

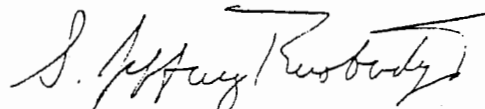

The purpose of this letter is to respond to your communication dated October 11, 2002. In your communication, you state that "the indictment is correct." I want to be clear that I disagree most strongly with your characterization of the indictment. We have, from the beginning of this case, been unwavering in our assertions that Mr. Walker is Not Guilty of the allegations of the indictment, and that the indictment, in fact, is based entirely on untruth.

First, the State has believed the assertions made by Jacquelyn Wagner with absolutely no basis to do so, while at the same time disbelieving the case as put before you by Mr. Walker and his legal counsel. Why should the State believe the allegations of a person with whom it has no relationship or history, over those of a man who has overcome great adversity to become an established member of the business community?

Second, as I have imparted to you in the past, had the police delved into this case fully and without bias, the State would be hearing two sides to this story instead of one. I believe this should be taken into serious consideration as the State decides how to proceed with this case. I must again take this opportunity to implore you to re-examine the evidence in this case, and to dismiss the same immediately.

Because each and every allegation set forth in the indictment rings false, the indictment is most certainly NOT correct.

Sincerely,

S. Jeffrey Rusbridge
